  Location: Egypt, Giza

Profile

I am a dedicated and passionate software engineer specializing in mobile development with Flutter. With one year of experience in building dynamic and responsive applications, I am committed to writing clean, maintainable code. I am continuously expanding my knowledge of mobile development while seeking opportunities to collaborate on innovative projects.

Education

Ain Shams University
Bachelor's Degree in Business Administration
Current Student | Expected Graduation: 2026

Projects

- **E-commerce applications frontend (FLUTTER) / backend (PHP)**

  - **Developed a comprehensive e-commerce application using Flutter for the frontend and PHP for the backend.**
  - **Implemented state management with GetX for efficient and scalable navigation and data flow.**
  - **Integrated API communication for seamless interaction between frontend and backend.**
  - **Focused on writing clean, readable code to ensure maintainability and scalability.**

Skills

- **Problem solving**

- **Dart Data Structure**

- **Mobile Development:**

- **State Management solutions (Bloc Pattern & GetX)**

- **Local Storage**

- **XML & Json**

- **Knowledge of version control systems (e.g., Git)**

- **Data base (SQL & T_SQL & MySQL)**

- **Firebase**

- **PHP**

- **MVVM**

- **RESTful APIs**

- **Dart OPP (object-oriented programming)**

- **Self-learning**

- **Open to learn coding programming languages as needed**

- **Understanding of testing frameworks (e.g., unit testing, widget testing, integration testing)**
- **Soft Skills:** Team player, Problem-solving, Creative

Interests

- **Software Engineering**

- **Mobile Development with Flutter**

- **Open-source Projects**

- **Software Development**
